

Build and Control AI-Enabled Autonomous Robots Using the Raspberry Pi and Python

Are you interested in learning how to build and control AI-enabled autonomous robots? If so, then this is the book for you. This book will guide you through every step of the process, from setting up your hardware to programming your robot's behavior. You'll also learn about the latest advances in AI and robotics, and how to use them to create your own custom robots.

What You'll Learn

- How to set up your Raspberry Pi and other hardware
- How to program your robot's behavior using Python
- The latest advances in AI and robotics
- How to use AI to create your own custom robots

Who This Book Is For

This book is for anyone who is interested in learning how to build and control AI-enabled autonomous robots. Whether you're a complete beginner or you have some experience with robotics, this book will teach you everything you need to know.

Learn Robotics Programming: Build and control AI-enabled autonomous robots using the Raspberry Pi and Python, 2nd Edition by Danny Staple

★★★★☆ 4.2 out of 5

Language : English

File size : 36917 KB
Text-to-Speech : Enabled
Screen Reader : Supported
Enhanced typesetting: Enabled
Print length : 602 pages
