In Maryka Biaggio's gripping new novel, *Falling*, a young woman named Sarah finds herself trapped in a high-rise apartment building, the victim of a

sinister plot. As Sarah struggles to survive, she must confront her own demons and the dark side of vertical living.

Falling is a suspenseful, thought-provoking novel that explores the dangers of living in close quarters, where privacy is a luxury and secrets can be deadly.

A Gripping Tale of Survival

Sarah is a young woman with a bright future. She has a promising career, a loving boyfriend, and a close-knit group of friends. But when she moves into a new high-rise apartment building, her life takes a sinister turn.

One night, Sarah is attacked in her own apartment. She manages to escape, but her attacker is still out there, lurking in the shadows. As Sarah tries to piece together what happened, she realizes that she is not alone. Other tenants in the building have also been targeted, and Sarah begins to suspect that there is a larger conspiracy at play.

With nowhere else to turn, Sarah must rely on her own wits and courage to survive. But as the danger escalates, she begins to question everything she thought she knew about herself and the people around her.

A Thought-Provoking Exploration of Vertical Living

Falling is more than just a suspenseful thriller. It is also a thought-provoking exploration of the dangers of vertical living.

In recent years, high-rise apartment buildings have become increasingly popular. These buildings offer a number of advantages, including

convenience, security, and stunning views. However, as *Falling* shows, there is also a dark side to vertical living.

In high-rise buildings, people live in close quarters, often with little privacy. This can lead to a sense of isolation and loneliness. It can also make it easier for criminals to target residents.

Falling is a cautionary tale about the dangers of vertical living. It is a reminder that even in the most modern and luxurious buildings, there is always the potential for danger.
