The right brain is the creative, intuitive, and holistic side of the brain. It is responsible for processing images, patterns, and emotions. When you use your right brain to read, you can process information more quickly and easily.

This book will teach you how to tap into the power of your right brain and unleash your reading speed. You will learn 100 one-minute drills that will

help you to:

- Increase your reading speed
- Improve your comprehension
- Reduce your stress levels
- Increase your focus and concentration
- Develop a more positive attitude towards reading

These drills are easy to follow and can be done in just one minute each. So what are you waiting for? Start reading faster today with 100 Speed Reading One-Minute Drills!

**Here is a sample drill from the book:**

### **Drill #1: Find the Hidden Word**

Look at the following text and try to find the hidden word as quickly as possible:

The cat sat on the mat. The cat was black. The cat was very happy.

The hidden word is "the".

This drill helps you to develop your visual scanning skills. When you are speed reading, you need to be able to quickly scan the text and identify the important words and phrases.

With practice, you can learn to find the hidden word in less than one minute. This will help you to increase your reading speed and

comprehension.
